Illinois Chamber applauds agreement on Unemployment Insurance

Following today's press conference, Illinois Chamber President and CEO Todd Maisch issues the following response:

"We were happy to participate in the negotiations that led to today's agreement on the unemployment insurance trust fund deficit," Maisch said. "Today's agreement illustrates the results that can be achieved when everyone works together cooperatively to tackle the big issues facing our state. As we head into an uncertain economy, employers will benefit from the minimization of tax increases."
